

Configuration:

LA-343 Kensington Safety/Security Cable

Product Overview:

The Kensington 64032 Master Lock adds safety and protects your device from theft with a patented cable-and-lock system. Constructed with a black galvanized steel cable, this lock provides you with strong security and peace of mind knowing your valuables are secure. The Kensington 64032 secures to your device via an industry-standard Kensington security slot, and comes with two keys and a 72-inch cable, with replacement keys available through the manufacturer.

Highlights:

- Provides added safety by securing wall and ceiling mounted devices
- Prevent theft
- Secures devices with an industry-standard Kensington security slot
- Galvanized black steel cable provides strong security and peace of mind
- Cable length 72 in. (182.88 cm) for added versatility

Includes: One (1) LA-343 Kensington Safety/Security Lock
One (1) Cable 72 in. (182.88 cm)
