

Product Overview:

The LPT-A117 Remote Power Supply Kit provides a solution for powering a unit from a remotely located power supply. The LPT-A117 can be used with the *LT-84 ListenIR TransmitterRadiator Combo or a ListenPoint Control Unit (CU) and a ListenPoint Room Module (RM). Using a single Cat-5e cable it is easy to install and it keeps the aesthetics of the room looking nice.

*See LT-84 Remote Powering Tech Note for intended use and limitations.

Highlights:

- Allows for a clean looking room
- Used with one Cat-5e cable for remote power
- Easily to install in any application

Includes:

Two (2) Barrel to RJ-45 Adapters

One (1) Barrel to Barrel Cable 6 in. (15.2 cm)
