Specification

Technical	
Application	Designed for guided tour series for long usage without fatigue to the end user.
Frequency Response	100Hz – 14KHz
Sensitivity	-44dB +/- 3dB @ 1 KHz (0dB = 1 V / Pa)
Impedance	320hms
Maximum Sound Pressure Level	110Db
Termination	3.5mm jack plug
Finish	Black
Weight	25GMS
Architects and engineer specifications	Earpiece for Guided Tour System. Fit over ear design allows long usage without fatigue. Frequency response 100Hz – 14KHz, sensitivity -44dB +/- 3dB @ 1 KHz (0dB = 1 V / Pa), impedance 320hms, SPL 110Db, input power 30mW / Max 60mW terminating in a 3.5mm jack plug. Finish: Black.
