

# PB 4X4

Power Distribution System with 4x4 Distribution

The Power Base 4x4 features ART's "4x4" distribution on the back of the unit - four of the eight rear outputs are 1.25 inches apart. This allows the user to plug in wide power cables and multiple wall wart devices, and still have eight total power outlets to choose from.

Built into the PB 4x4 is a Surge and Spike Protection System, designed to protect powered equipment from harmful electric surges and spikes. The unit also has RFI and EMI filtering. These features make the PB 4x4 both quiet and safe - a necessity in nearly every audio application.

The PB 4x4 also features a front-located on/off power switch (which lights up when turned on), and a front-mounted circuit breaker reset switch. The unit has a total power capacity of 1800 watts, and features a 15 amp, front located circuit breaker.

The rugged, all-steel chassis occupies 1U rack spaces and is intended for installation into standard 19" equipment racks.

The PB 4x4 features a one-year warranty. An outstanding value, the feature set of the PB 4x4 is perfect for a multitude of studio, install, contractor and live power situations.

Applications for the PB 4x4 include Live Sound Systems/PA, Permanent or

## SPECIFICATIONS:

Power Outlets	Eight Rear Outlets with "4 X 4" Outlet Spacing
Power Capacity	1800 Watts Capacity
Circuit Breaker	15 Amp
Power Switch	Front, On Off
Power Switch Illumination	Yes
Circuit Breaker	Front Location
Filtering	EFI & RFI Filtering
Protection Circuitry	Surge & Spike Protection
Construction	All Steel Chassis
Size	1U Rack Mountable

## APPLICATIONS:

Live Sound Systems/PA, Permanent/Fixed Installations, Church, Club and Practice PA Systems  
DJ Sound Systems, Monitor Systems, Home and Project Recording Studios
